

Everyday skincare routines away from your salon should provide complete protection and hydration to the skin. To achieve this goal, harsh environmental irritants need to be kept away from the skin and excessive sun radiation must be eliminated, not just for health reasons but so skin remains youthful, glowing and healthy. Skin MD Natural™ now with SPF15 is a unique product (for face, body and hands) that does just that, by combining the most beneficial features of sunscreens and shielding lotions it helps prevent loss of natural oils and moisture and doesn't allow irritating substances to penetrate the skin, it absorbs the part of the UV spectrum that contributes to premature skin ageing. When so many salons are missing the opportunity of the extra profit from a take home sale this well priced product is my 'hot to stock'
